1 October 1963

REPLY TO
ATTN OF: P.E.

SUBJECT: Monthly Activity Report for September 1963

TO: Commander
WRSP-IV

1. Supply:

a. New helmet bladders. We received some of the new type helmet bladders referred to by [redacted] at the meeting with [redacted] [redacted] flew a four (4) hour flight with no comments using the new bladder. [redacted] will study the bladder situation while on deployment.

2. Suits:

a. We have received one (1) 621 LM suit for driver #195 and #55. The fitting was accomplished by David Clark Technician Representative which the results on both suits were good.

b. Personal Equipment made a chamber run on driver #55 and the suit was accepted. Chamber run was attempted on driver #195, however, due to ~~the~~ a fitting broken on his suit, it had to be cancelled. The fitting was replaced and the suit is in servicable condition.

c. In addition to the two suits noted, we received 1 pair 647 gloves for driver #195 and 5 pairs for driver #46, both were good fit.

3. Medical:

The Flight Surgeon received new items of laboratory equipment this month to include a microscope and hemometer. Medical has received jeep ambulance and steps has been taken to submit modifications requirement to Director of Material.

4. Recommended improvement areas:

Director of Material and [redacted] discussed the possibility of having two (2) MA-1 helmets for each driver. This might prevent some delay in take-offs in case of helmet failure. Six (6) more helmet assemblies are required. The D/M will take the matter under advisement. It is possible that the helmets are excess now in AF Stock as they are fazing out this type.

STATINTL

5. Trip Report:

The purpose of the trip made by [redacted] to Detachment "H" was to inspect and evaluate Personal Equipment Section. [redacted] will give a complete report upon his return from [redacted] which he is presently TDY.
